

APPLICATION GUIDELINES

When applying as a 'space treatment' then Vulcan P RFU Fly Spray is a ready-for-use product and does not require further dilution. Apply using a fan assisted rotary atomiser or mist blower with ULV attachment or by means of any 'cold fogging' appliance. Vulcan P RFU Fly Spray should be applied at a rate of 1 ml per cubic metre of treatable volume. Spray into the air when using cold fogging or misting equipment and NOT directly at hard surfaces.

When applying as a surface treatment, Vulcan P RFU Fly Spray is a ready-for-use product and does not require further dilution. For the treatment of porous and non porous horizontal or vertical surfaces. Apply 1 litre of product as a coarse low pressure spray to 25 square metres of sprayable surface using a standard compression sprayer. Pay special attention to areas where flies and other noisome insects rest and congregate. For long-term control of crawling pests use a specific residual agent. Product may 'craze' plastic surfaces.

ENSURE ADEQUATE VENTILATION when applying. VENTILATE TREATED AREAS THOROUGHLY after application. COLLECT EGGS AND REMOVE FEED, EXPOSED WATER AND MILK BEFORE APPLICATION. DO NOT HANDLE TREATED FABRICS UNTIL DRY AND AIR THOROUGHLY BEFORE USE.

STATUTORY CONDITIONS RELATING TO USE  
FOR USE BY PROFESSIONAL OPERATORS.

The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the use of this product at work.  
Maximum dose: 1 ml per cubic metre treatable volume or 1 litre per 25 square metre of treatable area.  
Engineering control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment.  
WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SYNTHETIC RUBBER/PVC GLOVES when using. AVOID EXCESSIVE CONTAMINATION OF COVERALLS AND LAUNDER REGULARLY.  
DO NOT BREATHE FOG OR SPRAY MIST. Otherwise wear respiratory protective equipment and eye protection (see HSE GUIDANCE BOOKLET HS (G) 53, "Respiratory Protective Equipment - a practical guide for users"). However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection. DO NOT APPLY in the presence of naked flames, hot surfaces or unprotected electrical equipment. EXCLUDE ALL PERSONS AND ANIMALS DURING TREATMENT. HAZARDOUS TO BEES. VERY TOXIC TO FISH AND OTHER AQUATIC LIFE. REMOVE OR COVER ANY FISH TANKS OR BOWLS before application. DO NOT CONTAMINATE water courses. AVOID ALL CONTACT WITH PLANT LIFE. DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES. COVER WATER STORAGE TANKS before application. THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way. DO NOT APPLY TO LIVESTOCK OR POULTRY. Protect milk machinery and milk containers from contamination. DO NOT APPLY TO CLOTHING OR BEDDING. DO NOT APPLY DIRECTLY TO ANIMALS. DO NOT USE ON FILTER BEDS AT SEWAGE TREATMENT WORKS.

READ ALL PRECAUTIONS BEFORE USE. HSE No. 7437

PRECAUTIONS

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe vapours/spray. Wear protective gloves/protective clothing/eye protection/face protection. Wash contaminated skin thoroughly after handling. Do not eat drink or smoke while using this product. Do NOT induce vomiting. IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician. Dispose of contents/container in accordance with local regulations. Avoid release to the environment.

DANGER

Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects. May be fatal if swallowed and enters airways. Contains PERMETHRIN. May produce an allergic reaction.

Contains: - 0.25 % w/w Permethrin (25:75 cis:trans),  
0.125 % w/w Tetramethrin  
0.75 % w/w Piperonyl Butoxide  
Contains distillates (petroleum) hydro-treated light
