

Product description - ShoulderSink

ShoulderSink is a mobile hand hygiene station that gives the user access to a real hand wash wherever and whenever needed. The unit is typically packed with Water, Soap, Paper, Handrub- but products can be fitted as needed.

The used water is spilled on the ground - spent paper is collected in a built-in bin. ShoulderSink is typically installed in the caravan / vans by means of a bracket, but can also be carried along, via the shoulder strap provided.

Users of ShoulderSink

Shouldersink is typically used by professionals whom are often on the move and either have dirty work or need high hygiene standards due to work or social contact. It is amo. used in the following trades/industries:

Renovation	Monting/Installation	Forestry
Sewerage	Port service	Landscapers
Electrical installers	Truck Drivers	Carpenters
Chimney sweepers	Truck service	Contractors
Road workers	Tire service	Building services
Home Care	Fire and Rescue	Damage Service
Institutions	Laboratories	Water Supply

Benefits

By having access to proper handhygiene with soap, water and paper, ShoulderSink helps to

- **Avoid cross contamination** as the water turns on without use of hands
- **Reduce sick leave** due to communicable diseases (Influenza, Novo, Cold, etc.)
- **Reduce skin reactions** from local irritants that are part of work processes
- **Avoid allergic reactions** due to parabens and other substances in wet wipes which stays on the skin after use
- **Time saving** - when you avoid looking for, borrow or even drive for a sink
- **Cost savings** - as average wash is 70-90% below the cost of using industrial Wipes.

Data
