Fortefog Fumers

- A range of pack sizes is available from mini and midi which are approved in the UK and Ireland for amateur use, to the larger maxi and jumbo sizes for professional use.
- The fumers are suitable for use in the work place, factories, offices and warehouses; in the home, loft areas, kitchens etc and for clearing shipping containers of insect pests.
- Agropharm fumers are made to our own specially designed formula and incorporate permethrin as the active insecticide killing ingredient.
- The special non sparking fuse system of the amateur range has been designed for extra safety and ease of operator use.
- The fumers leave no residual smell or deposit after use.

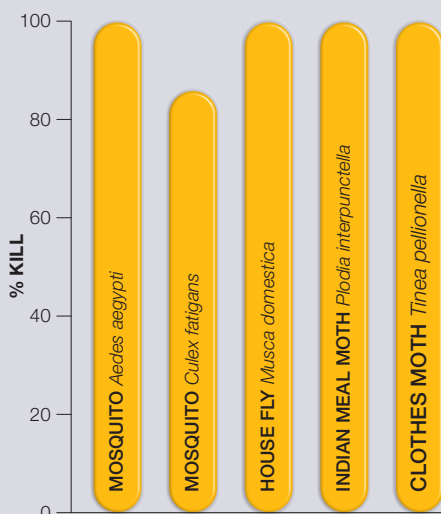

Superb killing power across a wide spectrum of insects makes Fortefog Fumers the natural and best choice for simple and effective insect killing.

EFFICACY TESTING OF FORTEFOG FUMERS ON MAJOR PESTS

Fumers were tested independently in authorised laboratories to show activity at the standard rate of application. Activity against a major competitor standard was also made on key indicator species at the recommended rate clearly showing the superiority of the Fortefog fumer.
